Fffffffff Numb. 5677

The Daily Courant.

Friday, January 1. 1720.

Rome, December 16.

ON the 3d Inſtant the Venetian Ambaſſadour received an Expreſs from Corfu, by the Way of Otranto, with a Packet of Letters for this Court, upon which he ſent to the Quirinal to demand Audience of the Pope, but was refuſed it, the Court being unwilling for fear of eſtabliſhing a Precedent for other Miniſters, to admit an Ambaſſadour after his Audience of Leave, who according to their Nicety in the Ceremonial is then in a private Condition. On the 5th, Sig. Raſponi ſet out for Ferrara to carry the Cardinal's Cap to Sig. Bentivoglio, who will be declared Cardinal Legate at Ravenna, to relieve Cardinal Davia, whoſe Term is near expiring. The Abbot Sacripanti, Nephew to the Cardinal of that Name, is to carry a Cap to Portugal to the Biſhop of Algarves; but the Perſon who is to carry another to Count Althan at Vienna, is not yet appointed. As to the Cap deſigned for the Biſhop of Cartagena in Spain, the ſending of it thither will be put off, for fear of diſobliging Cardinal Alberoni by poſtponing him, the Pope having hitherto deferred ſending one to him, upon the Inſtances of the Imperial Court, which proteſted againſt his Promotion. The ſame will be obſerved with regard to the Archbiſhop of Rheims in France, againſt whoſe Promotion Cardinal de la Tremoille has proteſted in the Name of the King of France. Two Spaniſh Gallies coming from Genoa, have put into Civita Vecchia, and are ſince ſailed for Sicily: It is ſaid they have 350000 Scudi on board, to pay Part of the Arrears due to the Army commanded by the Marquis de Lede, and their Debts at Meſſina, for the Security of which they left Hoſtages, when the Citadel there ſurrendered to the Imperialiſts.

Milan, Dec. 19. 'We have received Advices 'from Meſſina of the 30th paſt, that they had yet 'no certain Account of the Body of Imperialiſts 'commanded by General Zumjungen, but as the 'Wind had been very favourable ſince they left Meſ'ſina, it was not doubted but they were arrived at 'the Place to which they were bound. This Ex'pedition had alarmed the Enemy to ſuch a De'gree, that on the 26th paſt they not only aban'doned Tavormina and the adjoining Fort la Mola, 'having firſt deſtroyed all their warlike Stores, but 'alſo left their advantageous Situation at Franca'villa, the Marquis de Lede having drawn his 'whole Force together from all Parts, whom he 'ordered to rendezvous at Leonforte; that they 'gave out they were to march on toward General 'Zumjungen, in order to attack him: Theſe Letters 'add, that the Imperial Generals were making the 'neceſſary Diſpoſitions with the Troops remaining 'near Meſſina, in order to ſupport General Zum'jungen, as ſoon as they ſhould have certain Advice 'of the Enemy's Motions. They tell us in a 'Poſtſcript, that the Enemy were alſo retired from 'Catania and Cattalibraro. Our freſheſt Letters 'from Naples ſay, that General Zumjungen, upon 'Advice that the Marquis de Lede marched on the '27th from Francavilla, with a Deſign to attack 'him, had thought fit, after having appeared near 'Palermo, to ſteer his Courſe to Trapani, and to 'land there.

From the Harlem Courant, dated Jan. 2.

Stockholm, Dec. 9. The Deputies of the States of the Kingdom, who arrive by Degrees, meet privately to deliberate how a good Harmony may be eſtabliſhed in the enſuing general Diet, Experience having ſhewn in the late Aſſembly, that by their Differences with the Nobility, who were for continuing the War againſt all the Enemies of the Crown, the Kingdom was expoſed to utter Ruin. It was ſaid ſome time ago, the Hereditary Prince of Heſſe Caſſel had a good Proſpect of being declared King; but now this ſeems to be not ſo near yet. It is obſerved, that Count Gyldenſtern, who is deſcended of the Royal Blood by his Mother, (Siſter to the preſent Count Palatine of Deux-Ponts, and Grand Daughter to Catharina the Great Guſtavus Adolphus's Siſter) is often with the Queen and the Hereditary Prince of Heſſe, and is favoured by a certain Party. General Lieven, who is deſigned to be General of the Marine, has received a conſiderable Sum of Money to go to Carlſcroon and pay the Arrears due to the Seamen of the Fleet, who ſhew great Diſcontent for want of Pay; he carries with him the Queen's Commiſſions for raiſing more Seamen, and for providing what is neceſſary for fitting out a ſtrong Fleet; by which it appears the Court are reſolved to do their utmoſt for carrying on the War againſt the Czar.

Warſaw, Dec. 16. The neceſſary Preparations are making here for the King's Reception, who is expected every Moment, his Majeſty's Equipages being already arrived. Diſpoſitions are alſo making for the opening of the General Diet, which is to aſſemble on the 30th Inſtant. The Palatine of Mazovia, who was to go to Peterſbourg, has put off his Departure till next Month, to ſee whether the Contents of the Czar's Circular Letters to the Senators of the Kingdom, may not engage the Diet to make ſome Alterations in his Inſtructions. We hear from Lemberg, that the contagious Diſtempers are broke out again to that Degree that they have ſwept away moſt of the Monks in the Convents there.

Dantzick, Dec. 20. The new Biſhop of Cracow, who arrived here ſome Days ago, is upon his Departure to return to Warſaw: He was come hither with the Deſign to aſſiſt at the particular Diet at Marienburg, which however is come to nothing. The Palatine of Culm, to whoſe Intrigues the diſſolving of the particular Diet at Siradia in Great Poland is aſcribed, knew, that the Magiſtrates of this City would complain to the Aſſembly, if they had met, of the Hoſtilities committed by ſome Poliſh

Forces

Forces in their Territories by his Order. The Ruſſian Commadore Villebois has diſarmed the three Frigates under his Command, and delivered the Guns and Ammunition into the Cuſtody of our Magiſtrates: He afterwards cauſed the Ships to be laid up within the Boom, where they lie ſheltered againſt any Attempt from the Swedes; and quartered his Men about the neighbouring Villages, where they are to pay for their Neceſſaries, and remain till next Spring. However, as the King of Poland has ordered the Magiſtrates by a Letter, to obſerve an exact Neutrality, they will find it hard to plead any thing in behalf of theſe Proceedings but extreme Neceſſity.

Hambourg, Dec. 29. We have here Letters from Petersbourg, which ſay the Czar has had a violent Cholick, but was much better when the Letters came away. It is ſaid another Miniſter of Holſtein will be ſent to Stockholm, to uſe his utmoſt Endeavours to obtain Audience of the Queen. Prince Dolhorucki, the Ruſſian Ambaſſadour in Poland, has formed a ſtrong Party among the Senators and Nobility, but it is hoped the King's Preſence in that Kingdom will prevent the Inconveniencies that might otherwiſe ariſe from thoſe Diviſions.

Oſtende, Dec. 22. The Preſident of our Admiralty has notified to the Perſons concerned in the Ships taken by the Dutch Weſt India Company, that the Emperour has reſolved, not to reſtore the Dutch Ships taken by ours by way of Reprizals, till due Satisfaction be made.

London, January 1.

Yeſterday arrived a Mail from France.

From the Paris Gazette, dated Jan. 6.

Madrid, Dec. 19. On the 12th Inſtant, the King, the Queen, and the Prince, went to the Pardo, where they diverted themſelves with hunting the Wolf and the wild Boar, and on the 15th they returned hither. On the 12th, Cardinal Alberoni ſet out from hence very early in the Morning, to return to Italy, by the Way of Aragon and Catalonia.

From the Paris Gazette.

Paris, Jan. 6. On the 30th paſt, the General Aſſembly of the India Company was held at the Houſe of the Royal Bank, in the Preſence of the Duke of Orleans, Regent of the Kingdom, the Duke of Chartres, and the Duke of Bourbon. The Company, after having approved and confirmed what has been done in their Name by the Directors ſince the laſt Aſſembly, deliberated on ſeveral Affairs. It was reſolved, that the Dividend for the Year 1720 ſhall be 40 per Cent. upon the 300 Millions of Actions, and that the Subſcriptions which make part of the 300 Millions, ſhall enjoy the Dividend of the Years 1718 and 1719, at the Rate of four per Cent. per Annum, having firſt been filled up and converted into Actions. The Company alſo reſolved, for the Conveniency of the Publick, and to give an Opportunity to the Provinces and foreign Countries for buying and ſelling Actions, to eſtabliſh an Office, in which they will cauſe Actions and Subſcriptions to be bought and ſold at the Rate that ſhall be affixed. They opened that Office on the 2d Inſtant, and delivered the compleat Actions at 1880; the Subſcriptions of four Payments filled up, at 1310; they bought then Actions at 1865, and the Subſcriptions at 1300. On the 4th Inſtant the Actions were ſold at 1885, the Subſcriptions at 1330; they bought the Actions at 1870, and the Subſcriptions at 1320.
